

Following is a listing of wire and cable products for military high temperature uses available from SCC.

SCC also offers a complete line of high temperature wire and cable to meet most commercial, industrial and military requirements.

Mil-C-27072	Multi-purpose Electrical Cable
Mil-C-27500	Aerospace Electrical Cable
Mil-C-55021	Multiconductor Cable for Wiring of Electrical Equipment
Mil-W-5086/2	Electrical Wire for Ground Support Services
Mil-W-5845	AeroTherm J® , Thermocouple wire for Aircraft Use, Type J
Mil-W-5846	AeroTherm K® , Thermocouple Wire for Aircraft Use, Type K
Mil-W-5908	AeroTherm T® , Thermocouple Wire for Aircraft Use, Type T
Mil-W-16878/1-6 /10-13 /17-28 /33-35	Hookup Wire for Electrical and Electronic Components (Type B, C, D, E, EE, ET, K, KK, KT)
Mil-W-22759/1-12 /22-23 /81-82, /89-90	Hookup Wire for Aerospace Electrical Systems
Mil-W-25038/1 /3	FlightSafe 260® , Hookup Wire for use in Engine Compartments of Aerospace Vehicles FlightSafe 260XL® , Hookup Wire for use in Engine Compartments of Aerospace Vehicles
Mil-W-81381/11, 12, 22	Aircraft Electrical Wire

All high temperature wire and cable is also available in multi-conductor, shielded and jacketed constructions. The cable constructions in this listing represent our standard product line. If you require special modifications or customizations, SCC engineers can create special cables for the most demanding applications.
